npr scifri book club pick next big idea club s top 21 psychology books of 2022 behavioral scientist notable books of 2022 a renowned grief expert and neuroscientist shares groundbreaking discoveries about what happens in our brain when we grieve providing a new paradigm for understanding love loss and learning in the grieving brain neuroscientist and psychologist mary frances o connor phd gives us a fascinating new window into one of the hallmark experiences of being human o connor has devoted decades to researching the effects of grief on the brain and in this book she makes cutting edge neuroscience accessible through her contagious enthusiasm and guides us through how we encode love and grief with love our neurons help us form attachments to others but with loss our brain must come to terms with where our loved ones went or how to imagine a future without them the grieving brain addresses why it s so hard to understand that a loved one has died and is gone forever why grief causes so many emotions sadness anger blame guilt and yearning why grieving takes so long the distinction between grief and prolonged grief why we ruminate so much after we lose a loved one how we go about restoring a meaningful life while grieving based on o connor s own trailblazing neuroimaging work research in the field and her real life stories the grieving brain combines storytelling accessible science and practical knowledge that will help us better understand what happens when we grieve and how to navigate loss with more ease and grace

a comprehensive and up to date handbook that surveys the field of grief therapy with contributions from leading international scholars and practitioners it covers foundational matters such as clinical presentations in bereavement the conceptualization of grief therapy and its evidence base distinctive approaches to grief therapy including existential therapy art therapy cbt and narrative psychodynamic and meaning based approaches specific circumstances of death such as violent death and suicide and particular populations such as bereaved parents and grieving children professional issues such as training in grief therapy and therapist self care the handbook is designed with students and practitioners in mind with vivid case studies that bring theory and practice to life key point summaries at the end of each chapter and recommendations for further reading on each topic

this innovative volume examines the phenomenological existential and cultural dimensions of grief experiences it draws on perspectives from philosophy psychology and sociocultural studies to focus on the experiential dimension of grief moving beyond understanding from a purely mental health and psychiatry perspective the book considers individual shared and collective experiences of loss chapters explore the intersections between the profound existential experiences of bereavement and how this is mediated by sociocultural norms and practices it points to new directions for the future conceptualization and study of grief particularly in the experiential dimension drawing on a range of interdisciplinary perspectives this important book will appeal to academics researchers and students in the fields of death and bereavement studies wellbeing and mental health philosophy and phenomenological studies bio allan køster is senior researcher at the national center for grief denmark and research fellow at copenhagen university hospital denmark ester holte kofod is assistant professor in the department of communication and psychology at the university of aalborg denmark

loving and grieving are two sides of the same coin we cannot have one without risking the other only by understanding the nature and pattern of loving can we begin to understand the problems of grieving conversely the loss of a loved person can teach us much about the nature of love love and loss the result of a lifetime s work has important implications for the study of attachment and bereavement in this volume colin murray parkes reports his innovative research that enables us to bring together knowledge of childhood attachments and problems of bereavement resulting in a new way of thinking about love bereavement and other losses areas covered include patterns of attachment and grief loss of a parent child or spouse in adult life social isolation and support the book concludes by looking at disorders of attachment and considering bereavement in terms of its implications on love loss and change in a wider context illuminating the structure and focus of thinking about love and loss this book sheds light on a wide range of psychological issues it will be essential reading for

professionals working with bereavement as well as graduate students of psychology psychiatry and sociology

a renowned psychologist reveals the power of human resilience in dealing with grief and loss the conventional view of grieving encapsulated by the famous five stages of grief denial anger bargaining depression and acceptance is defined by a mourning process that we can only hope to accept and endure in the other side of sadness psychologist and emotions expert george bonanno argues otherwise mourning is far from predictable and all of us share a surprising ability to be resilient our inborn emotions anger and denial but also relief and joy help us deal effectively with loss to expect or require only grief stricken behavior from the bereaved does them harm in fact grieving goes beyond mere sadness and it can actually deepen interpersonal connections and even lead to a new sense of meaning in life the other side of sadness is a must read for those going through the death of a loved one mental health professionals readers interested in neuroscience and positive psychology and anyone eager to understand our ability to thrive in the face of adversity

understanding grief is a comprehensive and accessible one stop introduction to all the major models of grief in addition to the individual perspective bereavement is discussed in relation to social cultural and religious factors and influences richard gross also examines the impact of different types of bereavement such as the death of a child parent spouse partner and sibling and discusses the impact of traumatic death in relation to complicated grief the text also covers pet loss death anxiety and post traumatic growth this innovative book combines personal accounts of grief with clinical accounts of patients provided by psychiatrists and psychologists and research involving large numbers of bereaved individuals understanding grief will be invaluable to all those working with bereaved clients including bereavement counsellors counselling and clinical psychologists healthcare professionals social workers and the interested layperson it is also suitable for people training to work with bereaved individuals

grieving beyond gender understanding the ways men and women mourn is a revision of men don t cry women do transcending gender stereotypes of grief in this work doka and martin elaborate on their conceptual model of styles or patterns of grieving a model that has generated both research and acceptance since the publication of the first edition in 1999 in that book as well as in this revision doka and martin explore the different ways that individuals grieve noting that gender is only one factor that affects an individual s style or pattern of grief the book differentiates intuitive grievers where the pattern is more affective from instrumental grievers who grieve in a more cognitive and behavioral way while noting other patterns that might be more blended or dissonant the model is firmly grounded in social science

theory and research a particular strength of the work is the emphasis placed on the clinical implications of the model on the ways that different types of grievers might best be supported through individual counseling or group support

low back pain lbp is characterized by discomfort or pain emanating from the lumbar sacral and coccyx regions this prevalent condition can profoundly impact individuals quality of life leading to functional limitations mental illness reduced productivity and increased healthcare costs physical and psychosocial factors not only affect lbp but how pain affects one's life lbp continues to be a major global cause of disability and is one of the most common reasons for visiting a doctor the years lived with a disability have increased highlighting the need for attention to the diagnosis management and treatment of lbp at various levels of healthcare in this research topic we aim to specifically explore a wide range of diagnostic approaches therapeutic interventions and strategies for effectively managing lbp symptoms this research topic will focus on the advances and recommendations on lbp and will serve as a forum to decrease morbidity mortality and the global disease burden

an engaging and illuminating exploration of grief and why despite its intense pain it can also help us grow experiencing grief at the death of a person we love or who matters to us as universal as it is painful is central to the human condition surprisingly however philosophers have rarely examined grief in any depth in grief michael cholbi presents a groundbreaking philosophical exploration of this complex emotional event offering valuable new insights about what grief is whom we grieve and how grief can ultimately lead us to a richer self understanding and a fuller realization of our humanity drawing on psychology social science and literature as well as philosophy cholbi explains that we grieve for the loss of those in whom our identities are invested including people we don't know personally but cherish anyway such as public figures their deaths not only deprive us of worthwhile experiences they also disrupt our commitments and values yet grief is something we should embrace rather than avoid an important part of a good and meaningful life the key to understanding this paradox cholbi says is that grief offers us a unique and powerful opportunity to grow in self knowledge by fashioning a new identity although grief can be tumultuous and disorienting it also reflects our distinctly human capacity to rationally adapt as the relationships we depend on evolve an original account of how grieving works and why it is so important grief shows how the pain of this experience gives us a chance to deepen our relationships with others and ourselves

designated a doody's core title in the fields of death education research and counseling psychology surely bill worden is a giant all of us

personally and professionally are indebted to j william worden from his work we may be just a bit wiser a bit healthier a bit more competent and a lot more in touch with meaning our own and those of others for the sake of all who mourn illness crisis loss recipient of the international work group on death dying and bereavement herman feifel award dr worden presents the highly anticipated fourth edition to grief counseling and grief therapy the gold standard of grief therapy handbooks the previous editions translated into 12 languages received worldwide acclaim for their sensitive insightful and practical approach to grief counseling in this updated and revised fourth edition dr worden presents his most recent thinking on bereavement drawn from extensive research clinical work and the best of the new literature key features the task model has been modified to account for new thinking and research findings in the field including meaning making resilience and continuing bonds a new chapter on the mediators of mourning helps clinicians to understand what accounts for individual differences in adapting to the death of a loved one looks at recent controversies in the field including the best way to understand complicated bereavement and the efficacy of grief counseling and therapy presents the vital distinction between grief and trauma and highlights different intervention approaches for each comprehensive and highly organized this text is useful to therapists just beginning to work in the field as well as seasoned practitioners
