from the acclaimed authors of *A Future Perfect* comes the untold story of how the company became the world's most powerful institution like all groundbreaking books the company fills a hole we didn't know existed revealing that we cannot make sense of the past four hundred years until we place that seemingly humble victorian innovation the joint stock company in the center of the frame with their trademark authority and wit economist editors john micklethwait and adrian wooldridge reveal the company to be one of history's great catalysts for good and for ill a mighty engine for sucking in recombining and pumping out money goods people and culture to every corner of the globe what other earthly invention has the power to grow to any size and to live to any age what else could have given us both the stock

market and the british empire the company man the company town and company time disneyfication and mcdonaldization to say nothing of coca colonialism through its many mutations the company has always incited controversy and governments have always fought to rein it in today though marx may spin in his grave and anarchists riot in the streets the company exercises an unparalleled influence on the globe and understanding what this creature is and where it comes from has never been a more pressing matter to the rescue come these acclaimed authors with a short volume of truly vast range and insight

this selection of readings demonstrates the use of both descriptive analysis and quantitative methods in the study of business records the emphasis however is on the role of various quantitative approaches part i contains articles that consider a number of questions about the methods to be used and the aims of business history research how is the subject to be defined what types of analysis are most useful in research in what ways can the findings of any research be used part ii provides a number of examples of business history writing that demonstrate the results of a quantitative approach using both primary and secondary source material some of the papers concentrate on the growth and performance of firms from various sectors of the economy some consider features of industrial structure others concentrate on techniques of marketing personnel management and the assessment of profitability part iii focuses on the techniques of management that have been used to motivate or control the development of business activity the studies include an analysis of the role of accounting data and other types of information aids to forecasting market analysis and the problems of risk and uncertainty in business decision making within various contexts the editor has not only provided an introduction to the reprinted articles but he has also included in part iv several special appendices useful for future research in business history there is a section on allowing for changes in the unit of account another appendix deals with the merits and limitations of financial ratio analysis an extensive bibliography is also provided this authoritative text was first published in 1977

business history and international business are cognate subjects there are few if any studies of international business that do not require a proper study of context international business decision making must be made relevant by a considered evaluation of the circumstances surrounding that decision this often means putting it into its historical context the contributions that the study of international business can make to business history are the input of appropriate theory and appropriate research methods the best international business theory can illuminate the seemingly disparate strategies of firms in given historical circumstances and can provide an integrated overarching conceptual structure of the study of business history the research methods used in international business are also worthy of scrutiny by business historians the proposition of this book is that international business theory and method can complement business history this cross fertilization has been occurring with increasing regularity over the past few decades and this book brings together some of the fruits of this conjunction of two important intellectual domains this book was published as a special issue of business history

why should history students care about theory what relevance does it have to the proper role of the historian historiography and historical theory are often perceived as complex subjects which many history students find frustrating and difficult philosophical approaches postmodernism anthropology feminism or marxism can seem

arcane and abstract and students often struggle to apply these ideas in practice starting from the premise that historical theory and historiography are fascinating and exciting topics to study claus and marriott guide the student through the various historical theories and approaches in a balanced comprehensive and engaging way packed with intriguing anecdotes from all periods of history and supported by primary extracts from original historical writings history an introduction to theory method and practice is the student friendly text which demystifies the subject with clarity and verve key features written in a clear and witty way presents a balanced view of the subject rather than the polemical view of one historian comprehensive covers the whole range of topics taught on historiography and historical theory courses in suitable depth full of examples from different historical approaches from social cultural and political history to gender economic and world history covers a wide chronological breadth of examples from the ancient and medieval worlds to the twentieth century shows how students can engage with the theories covered in each chapter and apply them to their own studies via the in practice feature at the end of each chapter includes discussion documents numerous extracts from the primary historiographical texts for students to read and reflect upon

as the population of the united states expanded and moved westward the meat and livestock industry expanded as well animals were essential not only for food and other products but also as a source of power for pulling wagons and farm equipment the parallel development of railroads was instrumental in the efficient transport for both livestock and meat during america s rapid growth in the 1800s and early 1900s an entire industry was developed to raise market slaughter and process meat for the nation s citizens and this fascinating book provides extensive histories of early meat companies researched with authoritative and meticulous detail by a leading expert in the field of meat and food safety meat then and now will give you perspective on the industry rooted in the history of america s development
